NEW HAMPSHIRE ASSOCIATION OF SCHOOL PRINCIPALS BYLAWS
Approved by the NHASP Membership on 1-10-19

Preamble from the NHASP Constitution

NHASP believes that the primary goal of education in New Hampshire is to assist in the development of all persons according to their potential and interests so that they may function as productive and effective citizens in our democratic society. The responsibility for the development and maintenance of educational programs, which will achieve this primary goal of education, rests with the principal in cooperation with school boards, superintendents, teachers, parents and students.

The primary growth and improvement of elementary, middle level and secondary schools in New Hampshire mandates that school principals, assistant principals and supervisors strengthen their effort for continued professional growth and learning. This necessitates a commitment to the complementary roles of various levels of administration and supervision within the schools, and should serve to promote close cooperation on matters of mutual concern. At the same time, recognizing the individuality of the roles of the elementary, middle level and secondary school principals, assistant principals, and supervisors and the need to preserve their unique identities is recognized. Therefore, the purpose of the New Hampshire Association of School Principals shall be:

B. To disseminate information to the members designed to improve their understanding of critical issues;
C. To provide professional development activities designed to assist members in increasing their leadership effectiveness and promote professional growth, and to develop vision for school communities;

E. To provide opportunities for cooperative study and solutions to the problems common to elementary, middle level and secondary schools in New Hampshire;
