

Attention NHASP Members: We Need Your Help Now to Step up for Our Association

Last year, our Program Evaluation Committee provided concrete steps for our Association to improve in these areas: **Mission and Vision, Transparency, Outreach, Professional Development, Messaging and Advocacy.** We have begun a process to re-invigorate our association this year.

Will you help us to keep the ball rolling?

In January, the membership unanimously passed new NHASP bylaws which call for board representation for elementary and secondary for all five of our regions: **Lake Region, North Country, South Central, Southeast, Southwest.**

In April, May, and June, the Board will examine this and will call for people to step up to be considered for open Executive Board positions. Additionally, our new Executive Director will need your help to serve on committees.

Will you be there for NHASP?

Show your interest by sending a note of intent saying why you're interested, the region you represent and your resume to Ken Page, Interim Executive Director at kpage@nhasp.org

Many thanks from NHASP!
